Have you ever wanted to have sex in a kinky location? Of course, we all have. Sometimes the urge for us to have sex while in a certain area is overwhelming, while other times it is something we fantasize about. Sex can be great in different locations. Sometimes people get a thrill out of having sex in places where they could get caught. Sex can be very fun in places other than your bedroom. Here we will discuss some of those places.

The car. This can get be a great place to have sex. This might be a little dangerous if you are driving, so do this while you are stationary. I'm sure that we all have got our rocks off in a car.

It was probably the place most of us lost our virginity...

1. A car is a great way to get a blow job or other sex act in public. You can easily pull into a public place and let her do her work. If someone catches on or you see the cops, just say that she was looking for something on the drivers side. Keep an eye out for people who may make your time less enjoyable. If you are the type that loves sex in public this is great. Nothing feels like having an orgasm while other people are watching you.

2. Sex on a rooftop can be interesting. Nothing makes you feel more free than to be closer to the clouds and sun. Be careful if you choose to try having sex in this location. Roof tops can be very hot. If they are metal, it will be super hot. Even regular tar paper or shingles can be hot too. I would suggest that if you choose to have sex on a roof top, bring a blanket along.

3. Of course, you want to be careful if you are having sex on a rooftop. Make sure not to be anywhere near the edges. Also try to make sure the area you are having sex in is sturdy. The last thing you want is to have to have someone call the paramedics because you fell off of the roof. That would make for an interesting discussion telling them how you hurt yourself.

4. Nothing sounds like the roar of a car as it goes over a bridge. Under a bridge can be a fun place to have sex. The sound of the cars and semi trucks can make you feel powerful. Unfortunately, homeless people also hang out under bridges. If you choose to have sex in this area, make sure none of them are around. It would be embarrassing to get mugged while having sex. Also check out for broken glass, that is the last thing your woman needs to get up her ass.

5. This one is quite risky. I wouldn't attempt this unless a night in jail turns you on. Sex at public events can be great. Sometimes during a sports game or concert you can sneak in a little action. Oral sex or masturbation is easiest to perform in these situations. Unless you are certain you won't go to jail, I wouldn't suggest having sex in one of these places. Wouldn't it be embarrassing if you were getting a blow job at a football game and you seen yourself on the big screen television?

Most men fantasize about having sex with the secretary. Having sex in the office can be great. This is my favorite place to have sex. I can't even begin to count how many times I have gotten laid in the office. For the most part, if you are careful you won't get caught. Make sure that if you are bagging her in the office the door is locked.

If you are lucky enough to be able to bag a lot of women at work, this can make the work day a blast. This is why I like doing this. The work day is so much fun when you can bang your coworkers. If you can get away with this, I highly suggest it.

If you work in an office with cubicles this can be good. Be warned, it can be easy for your neighbor to hear if you are breathing heaving and so forth. Unless you have regular asthma attacks, this isn't for you. I have never got into this kind of sex. I think that the cubicles are so small, it is too hard to enjoy myself.

Most of us drive cars. It is how we get from place to place each day. Why not enjoy that car a little more and have sex on the hood of the car? This can be a great deal of fun if you are the outdoors type of guy. Make sure the car is in park if you choose to do this. You don't want to be banging the old lady while the car slides down a hill.

This is probably my second all time favorite place to have sex. It is kinky as hell and it reminds me of super man. All men like to feel like the man of steal while having sex. Sex in a phone booth can be great. It doesn't matter if it is the kind with a door or not. I would suggest that even if it has a door, keep it open. It is easy to get hot in such a small area. The only time you want to be huffing and puffing is after you are done, not in the middle of sex.

If you are into having sex in public areas, those are some of the best tips I can give. Sex in these areas will please you and your partner more than you can ever imagine. Break out the condoms and enjoy!
